Professional Summary

A disciplined and analytical Software Development graduate with a National Diploma in Information Technology (NQF Level 6) and a strong foundation in designing secure, scalable web applications and data-driven systems. I am eager to contribute to a dynamic, industrial, and globally competitive economy. I bring a high attention to detail, a deadline-driven work ethic, and a genuine willingness to learn government systems and processes. My academic and project experience has equipped me with problem-solving capabilities, professionalism, and the adaptability required to thrive under pressure in a structured environment.

Skills

- Programming Languages: C#, JavaScript/TypeScript, Python, Node.js, HTML, CSS
- Frameworks & Tools: ASP.NET / ASP.NET Core, REST APIs, Git, GitHub
- Databases: SQL Server, NoSQL, Database Design & Query Writing

Experience

Intern — 03/2023 – 02/2024

FBK Markets – Midrand, South Africa

- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3.
- Studied user requirements to gain strong understanding of project initiatives and deadlines.
- Attended development programs to gain competencies and boost skills set.
- Enhanced website functionality by optimizing existing code and implementing new features.
- Developed testing code for web-based applications.
- Participated in weekly team meetings to discuss project progress, share knowledge, and collaborate on problem-solving strategies.
- Utilized version control tools like Git and GitHub to manage code, track changes, and collaborate with fellow developers.
- Collaborated with cross-functional teams to design, develop, and launch innovative web applications.
- Integrated third-party APIs into existing web applications for enhanced functionality and user engagement opportunities.
- Streamlined website responsiveness on mobile devices, significantly enhancing user experience.
- Assisted in migrating websites to cloud-based hosting, enhancing scalability and reducing operational costs.
- Troubleshoot and resolved bugs in legacy code, improving system stability and performance.
- Participated in agile development cycles, contributing to timely delivery of high-quality software products.

Education

National Diploma - Information Technology (Software Development) - 02/2023

Tshwane University of Technology – Pretoria

- **Major field of study:** Software Development, Database Development & Administration, Business Analysis & Modelling, Software Testing, Mobile Development
- **GPA:** NQF Level 6

Matric - 2016

Pretoria Technical High School

Certifications

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft 365 Certified: Fundamentals
- Oracle: Oracle Cloud Infrastructure 2024 Generative AI Certified Professional
- Aviatrix Certified Engineer: Multi-Cloud Network Associate
